26-93	Gilmore Consulting, LLC is completing a Phase I Environmental Site Assessment (ESA) on the commercial property located at 5395 I-55 North Frontage Road in Jackson, Hinds County, Mississippi. It is our understanding that the property is operated and maintained as the location of the Mac Haik Chrysler Dodge Jeep Ram Jackson Dealership. Part of the Phase I ESA process requires that we contact state and local government agencies to determine if records exist which might indicate an environmental condition or known concern at the referenced property. The ASTM Practice E1527-13 Standard Practice of Environmental Site Assessments requires that a records search be conducted with local regulatory departments for information regarding the subject property. To that end, we are requesting access to any records within any of your departments, which might indicate environmental concern at or in connection with this property. Of particular interest are the following items: Building Department Permit summary (date, type of permit, applicant/tenant) or available permits from construction to present. Upon review of a permit summary, we may request a review of individual permits. Construction date (current building, previous buildings if applicable) List of tenants which have occupied the subject property Permits of environmental concern (petroleum storage tanks, septic systems, oil/water separators) Oldest and most recent site layout plan from the above-mentioned property if available Erosion control plans on record for the subject property Record violations or complaints registered against the subject property Planning Department Record of any Activity Use Limitations (AULs) in connection with the property. AULs are typically in place at sites, which would prevent future uses of a property. Subject property zoning and any current zoning violations. Fire Department Records regarding hazardous materials usage/storage/incidents or known environmental concerns/contamination which may have affected the property. Records regarding aboveground or underground storage tank (UST) systems, which are currently or historically located at the property. Records of fire inspections at the subject property. Please call (601-988-8874) or email me (gilmoreconsultinglc@outlook.com) to discuss the request or records availability or if you require further information.
