26-238	Hello, I would like to request access to existing records documenting the technical, financial, and algorithmic systems that shape the City of Jackson's water governance and rate-setting processes. Attached is the official request and types of existing records for this request. While Mississippi law does not include a formal fee-waiver provision, I request that any fees be minimized or reduced to the extent permitted. I am a doctoral researcher studying water governance, financial transparency, and the role of technical and algorithmic systems in public decision-making. The requested records will be used for noncommercial, academic research and will help the public better understand how water rates, financial practices, and technical systems shape access and equity.
