26-786	I am formally requesting that the City hold a public meeting to provide transparency and clarity regarding the use of the 1% sales tax funds. Specifically, this meeting should explain how the funds have been allocated, the process used to select infrastructure projects such as roads, bridges, and water systems, and the timeline for completion of any remaining or delayed work. It is important that residents are given a clear and understandable breakdown of this information so they can see how decisions have been made and how these funds are benefiting the community. Public awareness and accountability are essential to ensuring trust and fairness across all neighborhoods. The City of Jackson's 1% Sales Tax Committee has shared a detailed account history covering 2020-2026; however, the information lacks clarity and organization. There is no clearly stated beginning net ledger balance as of October 31, 2019, and the transactions are difficult to follow because they move back and forth between different years, particularly regarding payments to engineering and architectural firms.	ppalmer@city.jackson.ms.us	04/14/2026 10:26:56 AM		Priscilla Williams Till
