26-2403	I hope this note finds you well. I know records requests land on desks that are already full, so thank you in advance. My name is Mahesh Murugesan, and I work at a small company called Effluent. We build software that helps wastewater treatment plants with day-to-day operations, energy use, and maintenance. To do that well we need to learn from how real plants actually run. Pursuant to the Mississippi Public Records Act (Miss. Code Ann. § 25-61-1 et seq.), I would like to request copies of the following records concerning the wastewater treatment facility operated by City of Jackson. Items 1 through 4 cover July 1, 2023 through June 30, 2026. Items 5 and 6 cover only the most recent twelve months, July 1, 2025 through June 30, 2026, to keep them small. 1. Electricity bills or usage statements for the treatment plant, showing monthly kWh and demand by meter or account, plus any submetering reports for aeration blowers or major pumps. 2. Chemical usage records: daily or monthly chemical feed or dosing logs (for example chlorine, hypochlorite, bisulfite, alum, ferric, polymer, caustic) and chemical delivery records. 3. Operator logs: daily or shift logs kept by plant operators, including any records of process changes or setpoint adjustments. 4. Equipment run-hour logs and maintenance work-order history for plant process equipment (for example blowers, pumps, clarifiers, and digesters), in the spreadsheet or database export the plant already produces. 5. Alarm and event history: the routine alarm summary or event log exports operators already generate, showing date, time, point description, and alarm text. 6. Process historian data exports at hourly resolution or finer, or the finest interval the plant already exports, for recorded process values such as influent and effluent flow, dissolved oxygen, ammonia, nitrate, pH, mixed liquor suspended solids, blower airflow, and sludge flows, together with the list of tag or point names and their descriptions. This is the item most valuable to us. Our records indicate the facility in question is the Savanna Street WWTP, Trahon (Big Creek) WWTF, or Presidential Hills (NPDES permit MS0024295). If that is not the right plant, please simply apply this request to whichever facility is correct. I would rather have the right data than the right name. I would appreciate electronic copies in the format your agency already holds them (.xlsx, .csv, or database export) rather than scans, to the extent applicable law permits. If any portion is exempt, please produce the non-exempt portions and identify the exemption claimed. If the estimated cost would exceed $100, please	10/22/26 11:34 AM		Mahesh Murugesan

26-2366	Formal Request for Reconsideration of October 16, 2026 Public Records Denial – Jarques Ratliff – Interrogation and Interview Recordings – Request #26-2207 Dear Records Custodian: EWU Media LLC ("EWU") respectfully requests reconsideration of the Jackson Police Department's ("Department") October 16, 2026 denial of Public Records Request No. 26-2207, which the City acknowledges receiving on October 2, 2026. The request concerns interrogation and interview recordings relating to Jarques Ratliff and the August 3, 2026 homicide investigation in the 500 block of Road of Remembrance, Jackson, Mississippi. The Department denied both categories under Miss. Code Ann. § 25-61-12(2)(a), classifying them as exempt investigative reports. EWU respectfully requests reconsideration of that classification and consideration of partial or complete disclosure under Mississippi law. I. Records at Issue This reconsideration concerns only the following requested recordings: Interrogation recordings (video preferred; audio if video is unavailable); and Interview recordings relating to the investigation, including those involving the victim, suspect, witnesses, reporting parties, or other involved persons. EWU requests release in native digital format where reasonably available, with targeted redactions where legally appropriate. II. Applicable Law and Statutory Classification The Mississippi Public Records Act, Miss. Code Ann. § 25-61-1 et seq., favors public access subject to statutory exemptions. Section 25-61-12(2)(a) exempts qualifying law-enforcement investigative reports but expressly authorizes agencies to release all or part of such reports at their discretion. Section 25-61-3(f) defines investigative reports by their contents, including specified categories of protected investigative information. EWU recognizes that some recorded material may qualify for exemption. Nevertheless, classification must satisfy the statutory definition rather than rest solely on a record's connection to an investigation. EWU requests confirmation that both recording categories were evaluated accordingly and clarification of the applicable grounds for continued withholding, to the extent legally permissible. III. Response to the Department's Grounds for Denial A. Investigative Harm – § 25-61-3(f)(i) The Department cites records whose disclosure would harm investigative efforts. EWU acknowledges this concern but respectfully requests consideration of whether selected portions could be released without exposing sensitive evidence, compromising investigative activities, or creating identifiable investigative risks. B. Protection of Informants and Witnesses – § 25-61-3(f)(ii) EWU recognizes the importance of protecting informants and witnesses. The Department is respectfully asked to consider whether appropriate redaction of identities, identifying details, or sensitive statements could permit limited disclosure while adequately protecting confidentiality and safety. C. Premature Disclosure – § 25-61-3(f)(iii) EWU acknowledges that premature disclosure may impede investigative or enforcement efforts. Nevertheless, the Department is asked to consider whether portions concerning officially	10/20/2026 07:54:33 PM	Police Department	EWU Media LLC
