26-2209	RE: Mississippi Public Records Act Request – Historical Anonymized Water Consumption & Billing Trends (2006–2026) To the Public Records Officer / Municipal Clerk: City of Jackson 219 S. President St. Jackson, MS 39201 Pursuant to the Mississippi Public Records Act (Miss. Code Ann. § 25-61-1 et seq.) and principles of public transparency, I am a graduate student at Jackson State University (JSU) planning to study trends of water consumption and billing in the region of Jackson, MS. The proposed project is intended for my Ph.D. dissertation work, and the data collected will be analyzed using data science analytics leading to AI tools. I hereby request copies of public records containing monthly water billing and consumption data for all utility customers within the service area stretching back twenty (20) years, specifically from September 2006 through the present date of September 2026 (or as far back as historical digital archives permit). To fulfill the research objectives of studying community-wide consumption trends and identifying usage spikes while strictly maintaining customer privacy under Miss. Code Ann. § 25-61-11, I am requesting that the data be exported into a structured, machine-readable format (such as a .CSV or .XLSX file) containing the following specific fields: 1. A unique, randomized, or masked identifier for each distinct utility account (e.g., "Account_001") to allow for longitudinal tracking of individual properties without disclosing private account numbers or customer names. 2. The geographic location of the account, restricted to the ZIP Code, City Ward, or Neighborhood designation. 3. The customer classification type (e.g., Residential, Commercial, Industrial). 4. The service/billing start and end dates for each monthly billing cycle. 5. The total volume of water consumed during the billing period (expressed in gallons or CCF). 6. The total dollar amount billed for water usage during the billing period. Please note that I am not requesting personal identifying information (PII) such as customer names, street addresses, phone numbers, financial account details, or social security numbers, and I fully consent to the programmatic omission or redaction of those specific fields. Thank you for your time and assistance in facilitating this public data for academic research. Sincerely, Deepak Vadlamudi Graduate Researcher Jackson State University (JSU)	10/02/2026 02:16:04 PM		Deepak Vadlamudi
